

Communication Tools

Americans now prefer texting over phone calls*. It is time for dental practices to join the mobile revolution! Here are three texting and communication options that will help you do that

Good

DentiMax Texting

- 2-way texting
- Automated recall reminders
- Automated appointment confirmations that write back into DentiMax
- Texting function embedded into DentiMax
- Automated birthday wishes

Better

DentiMax Communicator

- 2-way texting
- Online scheduling or appointment requests
- Automated appointment reminders and confirmations via voice, text or email
- Reputation management review system
- Supports multiple languages
- Customizable pre and post op care automated messages
- Social media marketing

Best

Weave

- 2-way texting
- Easily identify patients when they call in by getting a pop-up screen with all the patient information
- Set up full payment processing and make collections easier with text to pay
- Manage all your calls, texts, emails, e-fax, schedule and more from your smartphone
- Call metrics and data for your office
- Reviews management, marketing and automated scheduling tasks
- Missed-call text
- Replaces your old phone system and hardware
- Teledentistry, curbside waiting room and wellness forms
